Featured Speaker: Cassie Dickerson
Director Technology Commercialization

ABOUT OUR SPEAKER:

Cassie is a graduate of Ohio State's College of Food, Agriculture, and Environmental Sciences with a dual degree in Animal Science and Nutrition. She went on to study Intellectual Property law at the University of Kansas. Cassie joined the Technology Commercialization team in 2017 to focus on intellectual property strategy, and recently assumed the role of Director. Through this role she is responsible for strategic and tactical operational planning and management for the Technology Commercialization unit of the Corporate Engagement Office.

The mission of Ohio State ADVANCE is to increase the representation, advancement and recruitment of women faculty in the academic STEM (Science, Technology, Engineering, Mathematics and Medicine) careers, and contribute to the development and success of global research leaders.
