Part Two: Process and resources at Rev1 Ventures**

Friday, June 11, 2021

Noon – 1 p.m.

Via Zoom; please contact Katie Musson,
musson.7@osu.edu for registration details

Featured Speaker: Alicia Oddi

Managing Director of Entrepreneur and Inclusion Programs

ABOUT OUR SPEAKER:

Alicia Oddi, managing director of entrepreneur and inclusion programs, leads the strategy, engagement, and adoption of Rev1's investor startup studio program, a framework that gives entrepreneurs the support and services that they need when they need it.

From building Rev1's Learning Labs curriculum and content to curating the Entrepreneur's Toolkit, Alicia produces a fully integrated model that provides the training, tools, and connections that directly impact entrepreneurs and help them de-risk grow their companies. Alicia invites feedback from entrepreneurs to make the Rev1 investor startup studio more responsive as entrepreneurs' needs change.

Alicia also leads Rev1's diversity and inclusion (D&I) programs, ensuring that diversity and inclusion aren't an add-on, but rather are baked into and fully aligned with everything Rev1 does.

Alicia has a BA in Art History and an MA in Policy and Administration from The Ohio State University in Columbus.

The mission of Ohio State ADVANCE is to increase the representation, advancement and recruitment of women faculty in the academic STEM (Science, Technology, Engineering, Mathematics and Medicine) careers, and contribute to the development and success of global research leaders.
